Software

The Wattmon data loggers and modules are power by a highly versatile software interface that allows for ease of use and is easily configurable using the existing GUI and the built-in scripting engine.

Categories

This section contains documentation about the software that is offered with the Wattmons. It is further categorized as:

- The WattmonOS or Operating System files that are stored on the microSD Card.
- The firmware that is flashed to the embedded memory of the Wattmon data loggers.
- And some other notes on the cloud portal services that are available.
