

rand

WMPRO, WMMINI FW >= 1.893 WMMEGA FW >= 2.0

Return a random **integer** between **min** and **max**

Description

```
int rand ( int $min, int $max )
```

This function returns a pseudo-random whole number that is greater than or equal to **min** and less than **max**

Parameters

\$min: Minimum possible value

\$max: Maximum, returned values will be less than this

Return Values

Pseudo-random **integer**

Example

Generate 5 random numbers between 0 and 99

```
<pre><?
    for ($i=1; $i<=5; $i++) {
        print(rand(0,100)."\r\n");
    }
?></pre>
```

Typical output for the above example (actual results vary randomly):

```
76
44
12
49
84
```
